I have had a fantastic 7 years. I remember in Reception when Tom was on a bike and he thought he did a really good trick by turning the bars really fast, he then went into a brick and went over the handlebars!

In In year 5 we went on a trip I would never forget, I experienced a day as a Victorian child. I remember Mr Whittaker's fun maths lessons. Now last but not least our last year we went on the best trip I've ever been on we went to an Adventure Park, it was absolutely amazing!

I want to make lots more friends but remember my friends from primary school.

In high school my expectations are mixed because we are going from the top of the school right down to the bottom.

I want to make lots more friends but remember my friends from primary school.
